Walker stock jobbing party is ready, the Transit Company will obtain possession of its property and its old or a new charter, a release from all claims and blishment, upon a more permanent footing ore, of all its rights and privileges; but it inion that it will then be too late, that will then be impossible to restore public confidence, nat those who have stock will seize upon the ity to realize and foreswear all such ing. Confidence in companies deriving their corpo-te powers from any government in Nicaragua is one, it may be for years, and it may be forever. gone, it may be for years, and it may be forever. Micaragua Transit stock has had its day, and any new steamship or transit company formed to take the place of the old will never find a place in this market. It would be just about as easy to sell Parker Vein stock at the Board of Brokers as to induce the public to invest in another Nicaraugua Steamf they own or have credit enough to charter a teamer or two we should like to see them engage ckings as the Transit Company presented, and the sees will come out of pockets that miss every dolar, instead of the treasury of a company which i upposed to have no soul. Walker will require all the aid and comfort their long purses can spare, and n the absence of another company's property to onfiscate his demands for money are not likely to e satisfied. We see that Commodore Vanderbilt as withdrawn his steamers from the line, thus topping for the present, at any rate, all steam ommunication with Nicaragua. The stock market during the past week has had downward tendency. Operations have not been to a very large extent, and in almost every instance lose of the previous week. Money continues easy. The payments to the banks this month are very neavy, but the discount line is steadily increasing, and the aggregate is probably now greater than rn roads seriously interrupt business, and will maerially limit the general movement. The exportations of specie from this port last The above aggregate is about one million less than hat at the same date last year. The importations ast week were large. The California steamers prought one and a half millions. A portion of this may appear in the bank returns of Saturday, the uring the week ending Friday, March 14,

5th inst The steamship Arabia, at Boston from Liverpool, brought \$28,000 in specie.
